

Session Program

Apr 14 - 17, 2025

Exotic heavy meson spectroscopy and structure with EIC: Next-level physics and detector simulations

Thursday

CFNS, Stony Brook University, Peter Paul Seminar Room (C 120)

Thu, April 17

9:00 AM

Thursday: Session 1

Session | Location:

09:00 – 09:30

ePIC general talk about subsystems/capabilities

Speaker

Alex Jentsch

09:30 – 10:00

Overview of the ePIC low Q2 tagger

Speaker

Gary Penman

10:00 – 10:30

Recent open heavy flavor physics studies for the Electron-Ion Collider

Speaker

Xuan Li

10:30 – 11:00

Coffee

11:00 – 11:30

Spectroscopy with quasi-real photoproduction at the EIC

Speaker

Derek Glazier

11:30 – 12:00

Heavy quarkonium reconstruction and challenges with ePIC

Speaker

Spencer Klein

12:00 – 12:30

Discussion and Closeout

Speaker

Vladimir Khachatryan

12:30 PM

2:30 PM

3:30 PM

Thursday: Interactive/Tutorial session [postponed to a future zoom event]

Session | Location:
