

Session Program

Jul 21 - 24, 2025

Center for Frontiers
in Nuclear Science

New opportunities for beyond-the-Standard Model searches at the EIC

Session

Peter Paul Seminar Room, C-120

Peter Paul Seminar Room (C-120) Center for Frontiers in Nuclear Science Department of Physics and
Astronomy Stony Brook University Stony Brook, NY 11794-3800

Wed, July 23

9:00 AM

Session: DIS Structure and Factorization

Session |

Location: Peter Paul Seminar Room, C-120, Peter Paul Seminar Room (C-120) Center for Frontiers in Nuclear Science
Department of Physics and Astronomy Stony Brook University Stony Brook, NY 11794-3800

09:00 - 10:00 **Structure functions (45 min talk + 15 min discussion)**

Speaker

Keping Xie

10:00 - 11:00

Extraction of the Weak Mixing Angle at the EIC (45 min talk + 15 min discussion)

Speaker

Michael Nycz

11:00 - 11:15 **Coffee**

11:15 - 12:15

Joint QED and QCD Factorization in DIS (45 min talk + 15 min discussion)

Speaker

Justin Cammarota

12:15 PM
