HOW TO GET TO IIT Bombay

IIT Bombay is located at Powai, which is an eastern suburb in the North-Eastern part of Mumbai.

Public Transport

Mumbai has one of the most efficient and reliable public transport network. One can travel by Auto-rickshaws / Taxis to reach IIT Bombay from the nearest stations (Autorickshaws, however do not go further south than Sion and Bandra).

For longer distance, you can use either the BEST Bus Network or the Mumbai Local train System.

**Suburban Railway Transport:**

If you come by train to Mumbai and then need to reach IIT Bombay,
nearest suburban railway stations for IIT Bombay:

On the Central Line: Kanjur Marg, Vikhroli or Ghatkopar railway station. Autos are available which takes ≈ 8 - 15 min.

On the Western Line: Andheri/Bandra railway station. Auto takes about 40-70 min and cost around Rs 200- 300.

There is a terminus at Kurla where some Central as well as Western Railway Trains terminate. There is no convenient bus route from Kurla terminus. An autorickshaw is the best option. However it would be more economical to take a suburban train from kurla to Kanjur Marg and then take an Auto

The nearest suburban railway stations to IIT on the Central line (connecting CST, Dadar, Kurla, Thane, Kalyan) are Vikhroli and Kanjurmarg stations. The nearest station to IIT on the Western line (connecting Church-gate, Mumbai Central, Dadar, Bandra, Andheri, Borivli) is Andheri.

AIRPORT:

Mumbai's main airport Chhatrapati Shivaji Maharaj International Airport (CSIA) — both Domestic (Santa Cruz) and International (Sahar / T2) terminals — is fairly close to IIT-B (≈
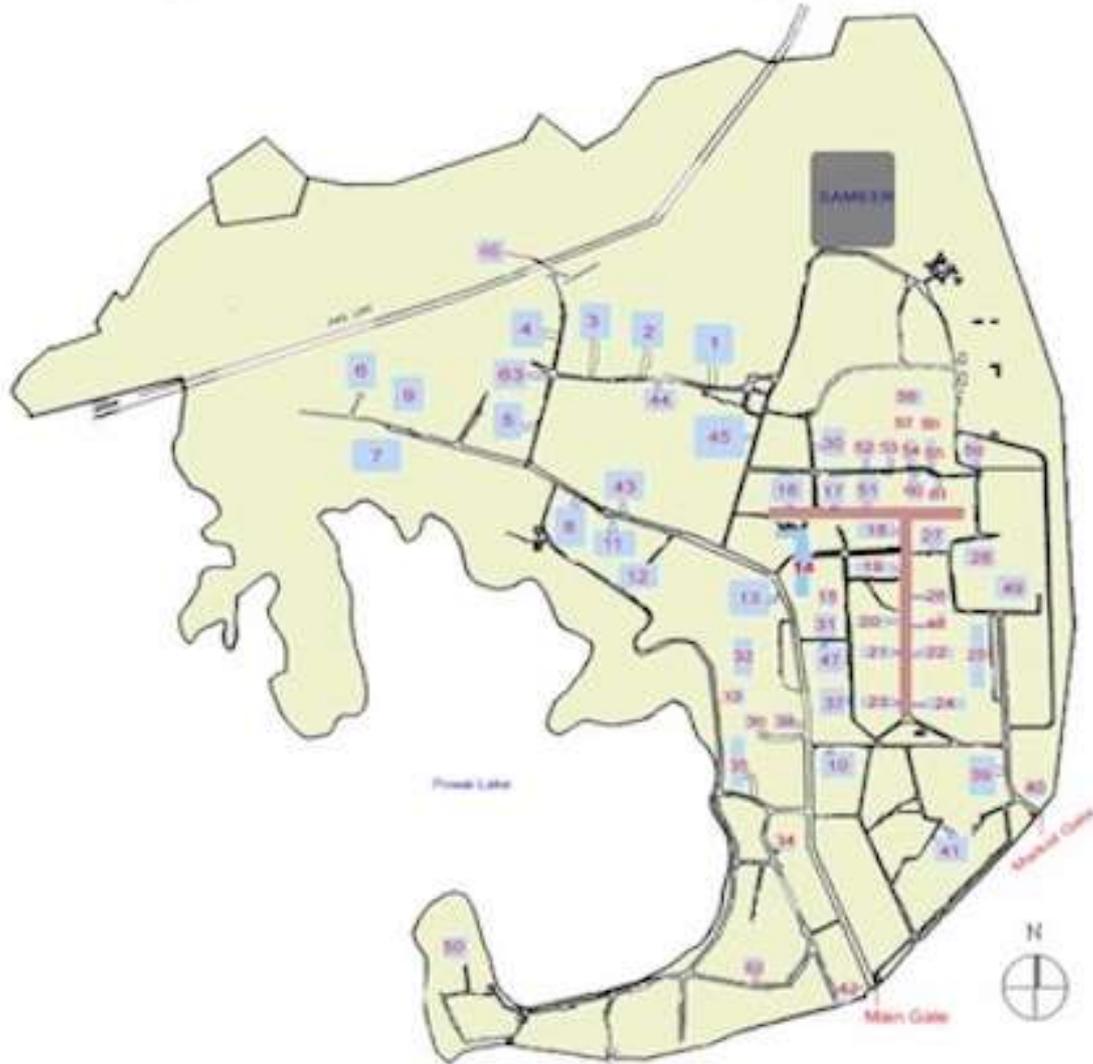

8–12 km). Pre paid taxis/OLA/Uber are available at the Airports. Autorickshaws are also available for IITB.

Time: 25–45 min (depending on traffic)

Fare: ₹300–₹550 (approx., varies by time & demand)
