

Session Program

Jul 14 - 17, 2026

Center for Frontiers
in Nuclear Science

Gluon Saturation, Diffraction and Multihadron Production at the EIC: Theory, Simulations and Feasibility of Measurements

Friday

Stony Brook University, CFNS, C 120: Peter Paul Seminar Room, Physics Building

Fri, July 17

9:00 AM	Friday Session
	9:00 - 9:40 AM Parton distributions in the shockwave formalism
	Speaker Diego Padilla
	9:40 - 10:20 AM Recent results on entropy production in DIS
	Speaker Krzysztof Kutak
	10:20 - 10:45 AM Coffee break
	10:45 - 11:25 AM Centrality in eA collisions using BeAGLE++
	Speaker Arjun Kumar
11:50 AM	11:25 - 11:50 AM Discussion session
